INTRODUCTION

Famous App is an unique initiative of AKS for sugarcane factories. This mobile app provides up-to-date information about following using his mobile phone. The data is retrieved directly from sugar factory's server in real time:

- Purchase
- Receipt
- Daily crushing
- Payments
- Supply Tickets
- Loan
- Surveyed Area
- Sugarcane Inventories

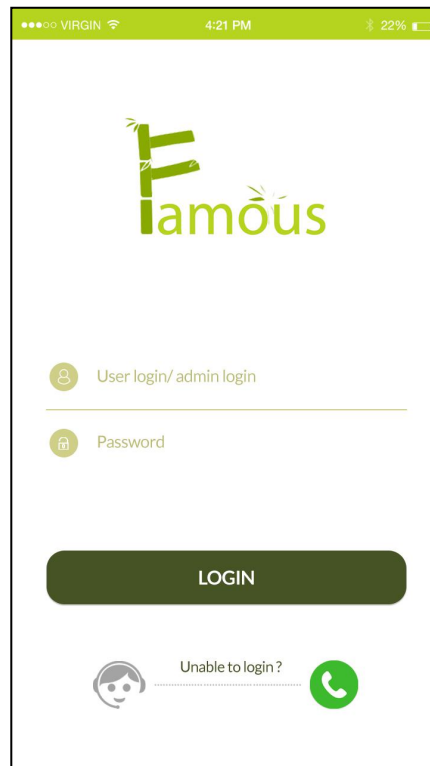

LOGIN SCREEN

User login- Provided by Factory owner/AKS team

Password- Provided by Factory Admin or AKS team

Login- Go with login using correct user-id and password

Unable to login- Call us directly

USER DASHBOARD

Navigation- For quick access

Refresh data- Click for check updated values

Report- Click for check report

Graph- Click for open report in graph

TODAY- Today values

TODATE- Till date values

LASTYEAR- Last year values

The screenshot shows a mobile application interface for 'Famous'. The top navigation bar is green with a white hamburger menu icon on the left and a white refresh icon on the right. Below the header, there are three main data sections: 'PURCHASE', 'PURCHASE Vs Receipt', and 'DAILY CRUSHING'. Each section displays values for 'Today', 'Todate', and 'Last Year'. At the bottom, there are two buttons: 'Daily Performance' and 'Season Performance'. Red callout boxes with lines pointing to specific UI elements are placed around the dashboard.

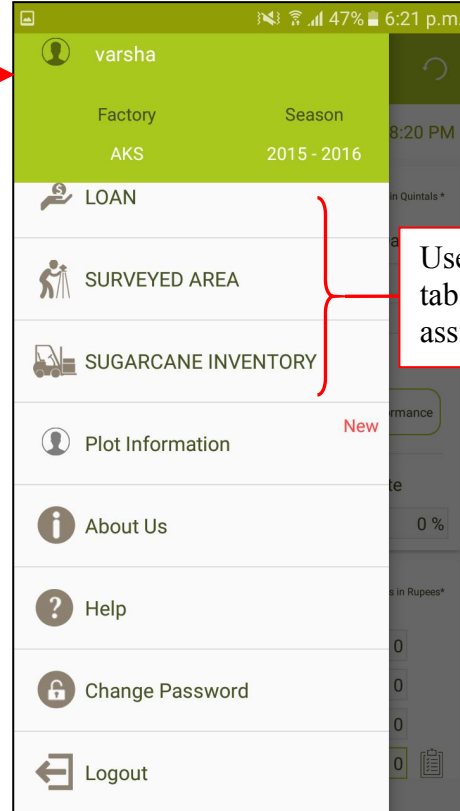

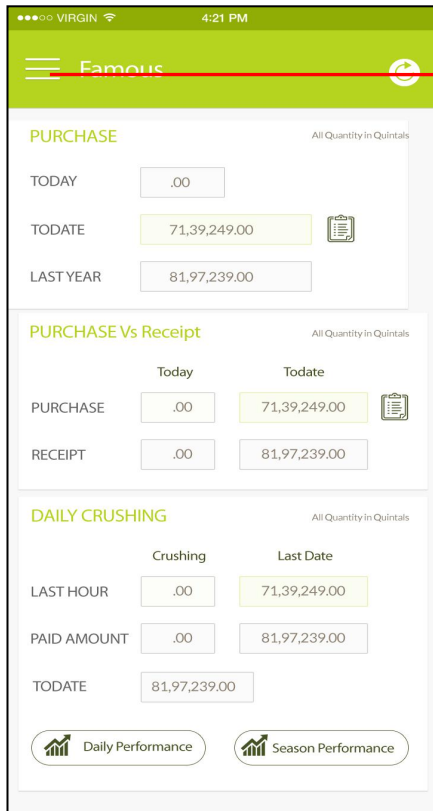

Category	Today	Todate	Last Year
PURCHASE	.00	71,39,249.00	81,97,239.00
RECEIPT	.00	81,97,239.00	
Crushing			
LAST HOUR	.00	71,39,249.00	
PAID AMOUNT	.00	81,97,239.00	
TODATE		81,97,239.00	

Callouts and their corresponding UI elements:

- Navigation: Hamburger menu icon
- Refresh data: Refresh icon
- Today value: TODAY label
- Till date value: TODATE label
- Last year value: LAST YEAR label
- Open report: Report icon
- Open graph: Daily Performance and Season Performance buttons

NAVIGATION

Navigation bar have shortcuts to access mobile app functionality.

User can only view tabs those are assign by admin.

REPORT VIEW

User can view complete season receipt & purchase comparison details report on clicking "Todate value"
